THE INFORMATION COUNCIL OF THE AMERICAS

(Incorporated Not For Profit)

INCA TRUTH TAPE HEADQUARTERS
620 GRAVIER STREET
NEW ORLEANS, LA. 70130 U.S.A.

AREA CODE 504
523-3614

There's more than meets the eye in the hassle between DA Jim Garrison and Dr. J. D. Grey of the Metropolitan Crime Commission.

Dr. Grey is on the board of directors of INCA.

There were two prime factors in establishing Oswald's Marxist credentials: Kerry Thornley and the INCA Truth Tape, which is a recording of a debate about Cuba between Oswald and Bringuier.

Grey was an INCA member in '63.

INCA is not a liberal organization.

The above is fact. What follows is allegation. In 1963 INCA had interlocks with the Cuban /Counter-/ Revolutionary Council. The Cuban /Counter-/ Revolutionary Council is a creature of the CIA. It allegedly took part in the assassination of Kennedy. INCA does from time to time produce propaganda. (This is not meant to be derogatory.) This however is not their main role. They are an information gathering agency. They glean information on intellectuals and revolutionaries who either are, or may turn out to be, a threat to things as they are. Certain agencies and governments subscribe to their services. These agencies and governments then take executive action.
